# Drum Closure

**CY01 Zinc Plated Drum Closure**

**CY02 Coated Drum Closure**

Drum Closure is made of cold rolled steel, 2", 3/4" flange and plug with single or dual gasket are available.

Closure is zinc plated with Cr3 or Cr6, also lacquered with epoxy phenolic for food and chemical grade drums.

**CY03 Leak Lock Plug**

**CY04 Paint Cap**

Paint cap can protect steel drum free from inside contamination during the painting spray process.

## Metal Cap Seal

**CY05 White Cap Seal**

**CY06 Printed Cap Seal**

2" and 3/4" metal cap seal is made of tinfoil from 0.23 to 0.35 mm thickness, gasket attached and optimal scoring line for tear off.

Customized logo printing service provided with certain MOQ. There are also aluminum and lined types for special usage.

**CY07 Aluminum Cap Seal**

**CY08 Lined Cap Seal**

# Drum Clamp

**CY09 Drum Clamp**

**CY09 Drum Clamp**

Drum clamps (a.k.a. lever latch) vary from their handle length 75 mm, 90 mm, 120 mm, 158 mm, 180 mm, 250 mm, used for locking ring on steel, plastic and fiber drums.

# Plastic Bung and Cap

 [drumclosure.com](http://drumclosure.com)

**CY10 Plastic Bung**

 [drumclosure.com](http://drumclosure.com)

**CY11 Nylon Plug**

There are 2'' and 3/4'' fine thread plastic bung and nylon plug for steel drums, and coarse thread plastic bung for poly drums.

 [drumclosure.com](http://drumclosure.com)

**CY12 Plastic Cap Seal**

 [drumclosure.com](http://drumclosure.com)

**CY12 Red Cap Seal**

The plastic cap seal with sizes of 35mm, 70mm, 79mm, 85mm, 89mm and 90mm for both metal and plastic drums.

# Bolt and Lugs

drumclosure.com

**CY15 Bolt**

drumclosure.com

**CY16 Lugs**

Bolt along with lugs, washers and nut are all made of high-grade steel with galvanization. Bolt M8, M10, M12 and 3/8", 5/8" are under selection.

## Drum Locking Ring

drumclosure.com

**CY18 Drum Clamp Locking Ring**

drumclosure.com

**CY19 Drum Bolt Locking Ring**

The drum locking ring is suitable for steel and plastic drums from 60L to 210L, diameter can be adjusted to requirements.

## Tool and Others

drumclosure.com

**CY24 Drum Plug Wrench**

drumclosure.com

**CY25 Cap Seal Crimping Tool**

Drum plug wrench is designed for screw in and out for steel plugs.

Cap seal crimping tool is used for install of 35mm, 70mm, 80mm and 87mm etc. cap seals on drums.

**CY26 Pail Crimper**

drumclosure.com

**CY27 Gasket**

Pail crimper tighten 18-20L metal bucket with its 16 hardened jaws.

EPDM, black buna, PE gaskets are all available for steel flange and bung, plastic bungs and plastic

## Tool and Others

**CY28 Manual Drum Pump**

**CY29 Electric Drum Pump**

The drum pump has a selectable flow rate by various motor, different material of the tube can be resistant to different contents inside the drums, such as food, chemical, fuel and flammable liquid

**CY30 Plastic Drum Faucet**

The Polyethylene drum faucet is primarily used on drums, with a thread adapter to connect to a drum with a 2" or 3/4" buttress thread, can be widely used in oil, water, kerosene, petrol, gasoline diesel etc.

## Die and Machine

**Die Mould**

**Assembly Line**

Automatic drum flange riveting mould includes flange feeding, punching and riveting process. Automation provide mould less abrasion and more effectiveness, widely used in drum factory's production line.

Automatic drum plug and cap screw assembly line is designed intended to improve efficiency of drum manufacturers. Xuheng 's experienced service is highly customizable according to the status of the drum workshop.

# Factory Outlook
